1. Go to «My Account »

2. Click on « My Apps & Credentials »

3. Choose « Live » and click on « Create App »

My apps & credentials

Sandbox **Live**

REST API apps

Create an app to receive REST API credentials for testing and live transactions.

App name	Actions
site officiel	

[Create App](#)

Note: Features available for live transactions are listed in your [account eligibility](#).

6. Enter a name (e.g. "Official website") and click on « Create App »

Create New App

Before you create your new app, let us know what kind of solution you're looking for.

Application Details

App Name

As a reminder, all apps created under your account should be related to your business and the type of business it conducts.

By clicking the button below, you agree to [PayPal Developer Agreement](#) (US accounts only).

Create App

- Copy "Client ID" and insert the code into your extranet at « Paypal Client ID »

LIVE API CREDENTIALS

Note that not all features are available for live transactions. Features available for live transactions are listed in your account eligibility.
