

RATE LINES

From this tab, you will create the rate lines, that is to say the combination between the meals included in the price and booking conditions.

Ex: Breakfast Non-refundable.

You can set up rate lines identical to those offered by your distributors or different lines.

In order to facilitate the rate management, you will be able to create :

* **Dynamic links between conditions (created previously) :**

Ex: Breakfast Non-refundable = Breakfast included Conditional cancellation 15 days before arrival 100% of the total amount of the first night - 10%

* **Dynamic pricing between rate lines**

Ex: Half board Conditional cancellation 15 days before arrival 100% of the total amount of the first night = Breakfast included Conditional cancellation 15 days before arrival 100% of the total amount of the first night + 20 €

The first rate line created must be independent (Master).

Example: In our case, the hotel has 3 booking conditions

- Conditional cancellation 15 days before arrival
- Conditional cancellation 1 day before arrival
- Non refundable

The hotel offers rates :

- Room only
- breakfast
- Half board

Creation of the first independent rate line (Master): Breakfast included Conditional cancellation 15 days before arrival 100% of the total amount of the first night

- Add a reservation condition. These are the booking conditions created previously.

Add a booking condition

- Enter the minimum stay

Minimum stay

You can decide to create dynamic links between the booking conditions: the price will be calculated automatically

- Dynamic pricing between rate lines: Check "independent" to enter the prices for this line or "dynamic" for an automatic price calculation.

Independent Dynamic

- = , Choose the rate line , choose "+" or "-"

Enter the amount or the rate EUR %

- Click on **Save**.

In our example, you will only charge the price for the independent tariff line (Master): Breakfast included (Conditional cancellation) 15 day (s) before arrival 100% of the amount of the first night.

You can modify or delete a rate line at any time.

In case of deletion, be careful to modify the rate lines using it beforehand.
